Listen to your favorite tunes via Bluetooth connection from your smart device!

CD/DVD players, wired connections, stereos are hot tub entertainment options that have are outdated. Today's users prefer to listen to their own playlists that are stored on their smart devices (iPhone, Androids, Tablets, etc.). Hard wired connection using Apples proprietary connector or a jack from the headphone output is inconvenient and requires OEMs to install waterproof cubby holes in the skirt to house them. Users find it hard to switch music and access alternative songs.

Technical Overview

The bba™ is a four channel, 120 Watts RMS Bluetooth wireless audio amplifier capable of delivering up to 30W RMS per channel. It has a compact, water resistant design that allows for flexible mounting possibilities. It is integrated into the BP systems and can be controlled via your smart device or a TP800 / TP900 / BPtouch™ panel.

System Specifications

- Speaker Impedance - 2-8 ohm
- Output Power
 - (2 ohm load) 30 Watts RMS per Channel (70W Peak)
 - (4 ohm load) 20 Watts RMS per Channel (50W Peak)
- Frequency Response - 20Hz-40kHz
- Low Pass Crossover- - 18 - 245 Hz
- Operating Voltage- - 13.8V DC (10V-16V)
- Maximum Current Draw (full power) - 5-8 amps
- Amp Dimensions (approx. l x w x h) - 214mm x 106mm x 35mm 8.4" x 4.2" x 1.4"
- Installation Clearance - 250mm free space top/sides
- Weight .68Kg /1.5lbs
- Control pad Cable Length - 610 cm/240 inches/20 feet
- Spa Lights Controls: 1 Amp Max

Material No. 59019
